Doc Drop

Toshiba's e-BRIDGE Doc Drop takes
the hassle out of repetitive print tasks

e-STUDIO

Time saving

Easy to use

Set it up and be at ease

Are you tired of constantly having to configure specific print settings for different documents and reports? Toshiba's e-BRIDGE Doc Drop improves productivity by simplifying the printing of office files into a select, drag, and drop process.

Once users create Doc Drop with different printing and finishing parameters, files are printed without manually opening an application or driver menu.

Whenever you need to print a file with similar print settings, simply drag and drop or right-click to send the required file onto the handy desktop icon, Doc Drop will handle the rest for you.

- Supports MS Word, Excel, PowerPoint, PDF & more
- Drag and drop or select from right click menu

The pre-requisites include a Toshiba e-STUDIO Multifunction Peripherals (MFP) with e-BRIDGE I/II/III postscript (PS3) print driver.
